

THOSE newspapers which want to make a special show of virtue and at the same time get in their work on Judge Hargis by demanding that the State Central Committee or its chairman, Judge McQuown, fire him from the body, ought to read up a little on party law. There are only two ways to get Judge Hargis out before the next meeting of a State convention: One is for him to resign voluntarily, the other for his district, the 10th, to demand that he do so. Even in the latter event, there could only be a demand; he could not be forced to resign. Judge Hargis has done a great deal for the democratic party, for which he expresses the greatest love, and while we believe he should resign his place as State central committeeman and thereby give the strongest evidence of love, it may be that he hesitates to do so because of an entire confidence in his own innocence and his ability to prove it, and does not wish to retire under fire. We are no apologist for Judge Hargis and as a matter of fact the appearances seem to be decidedly against him, but we are willing to give even the devil his due, and await the verdict of an unbiased jury before putting the eternal stamp of condemnation upon him. This week will likely tell the tale and if it be against Judge Hargis and he is proven guilty as charged in the indictment by incontrovertible testimony, we trust his punishment will be even greater than is usually accorded to those convicted of similar crimes because of his high standing officially and politically and that he will be repudiated by the democratic party and all honest men. But let us wait a time with patience, before utterly condemning him.

GOV. BECKHAM has had to appoint more special judges and judges to fill vacancies than any governor in the history of the State and he has generally done so with great discrimination and good judgment. Nearly every man he has appointed to a vacancy has afterwards had his commission verified by the party and finally by the people. The last to be so honored is Judge R. L. Stout, of Woodford, appointed to fill the vacancy which occurred by the promotion of Judge Cantrill to the court of appeals. After his appointment, Judge Stout, who is winning laurels upon the bench, announced his candidacy for the rest of the term, and he was on Saturday last, declared the nominee of his party for the office. Judge Ira Julian, of Frankfort, went up against him for a season, but he recognized the inevitable and withdrew in a manly card. Judge Stout is to try Caleb Powers next month and if justice is what the prisoner wants, those who know the judge say it will be dealt to him with even and exact detail.

AT Des Moines, Ia., a woman 63 years of age has just given birth to her seventh set of twins. The father is 78 and they have 17 children in all. Not many instances of a repetition of childbirth "when old and well-stricken in age" have occurred since the days that Abraham and Sarah rejoiced over the birth of Isaac, and few women under the sun have ever done what the Iowa woman has done. She has certainly obeyed the injunction to multiply and replenish the earth and made herself solid with Theodore the First, who should remember her substantially for setting an example against race suicide worthy of emulation, but which few women will care to emulate.

MRS. CHADWICK will occupy a cell with a woman pickpocket and her task will be four hickory shirts a day for the male prisoners, to be sewed by hand. She will be stripped of her finery and after being measured by the Bertillon system will don the prison garb of blue calico and be photographed for the rogue's gallery. The way of the transgressor is hard, but Mrs. Chadwick gets off lightly considering her frenzied financing killed one old man and made paupers of many others.

WE do not know whether Mrs. Waterson is with him or not, but if she isn't she doubtless wrote the great editor to come home immediately, when she read in his letters from Spain with reference to the Spanish dancing girl: "They melt and die away in the language of the music. A whirl, a shimmer of white and a flash of scarlet and they are gone."

THE talk of a new democratic daily in Lexington is perhaps all moonshine or its equivalent, but all the same we know of no community where a democratic daily is more badly needed than in the capital of the Blue-grass. To all intents and purposes the two dailies there are republican, differing only in degree, and connected by an umbilical cord.

BUFFALO BILL has for a long time been regarded by those who admire the spectacular, as a hero, but Mrs. Buffalo Bill has knocked the wind out of his sails. The divorce proceedings brought by him and won by her shows that the Bill is a very bad counterfeit.

THE rumor of the Czar's attempted suicide must have been a rather previous April fool. With all the means at hand, a failure to commit felo de se by the misguided potentate, would mean a huge bluff. If he wants to die and is in earnest about it he won't have to kill himself. All he will have to do is to take a ride on the streets one of these fine mornings and the assassin will do the rest.

WE heartily congratulate Editor Henry Thomas, of the Casey County News, on his successful race for school superintendent. That he will make an A 1 official, none who know him well will gainsay.

THE Congregational church after declaring that it would never accept Rockefeller's \$100,000, accepted. It tried to make a show of virtue but the temptation was too great.

Dr. Washington Gladden, who has so vigorously opposed the acceptance of a gift of \$100,000 from John D. Rockefeller for missionary purposes, preached a sermon, in which he declared that the great problem of today is the Christianization of industry and traffic. He declared that the State is a divine institution and that all its various officials are as much ministers and much bound by the rule of Christian conduct as he.

The "Democratic paper," which it is said may be established at Lexington by the Hargis brothers and Callahan, offers brilliant opportunities. Deacon Callahan as religious editor would doubtless win spurs while Judge Hargis could "do the courts," being especially fitted for that work by his long experience in Breathitt. "Farmer Hargis," as editor of the agricultural department, and Senator Alexander Hargis as financial editor would go far toward making a strong editorial staff. B. Fulton French might be retained as head of the alibi department.—Louisville Times.

W. J. Bryan spoke at the Jefferson dinner of Iowa Democrats at Des Moines Saturday night. His subject was "Back to the People," which phrase, he declared, expressed the present tendency in politics. The Democratic position has been vindicated, he said, by the present attitude of the country and the party is now more united and stronger than it has been since 1892.

MASTIC MIXED PAINT. Can't Be Touched. For painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned. As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE-GAULBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.
